

Spring 2019 ITM Undergraduate Advising Notes

General Advising Information

Spring student registration access will be activated according to your current standing and the following schedule:

1. Mon, Nov 5, 8:30am: All graduate students, U5 (fifth-year) undergraduates having more than 131 earned hours, and U4 (fourth-year) undergraduates having 90 or more earned hours
2. Tues, Nov 6, 8:30am: All U3 (third-year) undergrads having 60 or more earned hours
3. Wed, Nov 7, 8:30am: All U2 (second-year) undergrads having 30 or more earned hours
4. Thurs, Nov 8, 8:30am: All U1 (first-year) undergrads having less than 30 earned hours, exchange, visiting, and non-degree students

Students with disabilities, varsity athletes and ROTC students may be able to register 8:30am on Friday, November 2.

A student's U# classification is based on earned hours at 30 hours per level, which does not include classes taken in the Fall 2018 semester. Your adviser has not received your new alternate PIN yet. You do NOT need your new Alternate PIN to view the schedule for the new semester, only to drop/add classes. If you wait until January for advising and registration, your available course selections will be *very* limited, so please do this now!

Spring 2019 class schedules will be published on Monday October 22, 2018. You can view the class schedule either in the MyIIT Academics tab or in the "quick links" on www.iit.edu; you can also use the "secret faculty version" of the schedule at <https://wildfly-prd.iit.edu/coursestatusreport/>; just select your subjects from the drop-down box on the right. In order to see ALL ITM courses using MyIIT drop-down menus, you must hold down your CTRL key and select ITM (Information Tech and Mgmt), ITM (ITM Development), ITM (ITM Management), ITM (ITM Operations), ITM (ITM Security), ITM (ITM Theory and Technology) and TECH (Technology). Or you can just look at the last few pages of this document.

For Professor Trygstad's Advisees: I prefer to see all of my students for advising in person, so please *try* to come and see me during the advising period. I will not issue you your PIN for registration without *some* sort of advising, so if you have not at least had a conversation with me with me by telephone, email or carrier pigeon about the courses you would like to take, do not expect me to give you your PIN. Well, OK, probably not by carrier pigeon.

Professor Trygstad will be available for advising at the **Mies Campus** Tuesday through Friday. Advising appointments are available Tuesday through Thursday. Students may come for advising on a walk-in basis (no appointment) during office hours 3-5pm Thursdays and on Fridays after 1pm. *Professor Trygstad will be out of the office at conferences October 18 and 23, an event October 24-26, and a conference November 5-9 so please plan accordingly.*

Professor Trygstad will be available by appointment and during office hours at the **Rice Campus** on Mondays except November 5.

You may schedule an appointment at <http://trygstad.rice.iit.edu/appointment/> or at <http://trygstad.youcanbook.me> but *please ensure you are there at or before your scheduled time to be fair to your fellow students.*

You cannot make an appointment during my *scheduled office hours* or on Friday afternoons; just drop in. As a reminder my Mies Campus office is Perlstein 223E and my Rice Campus office is room 227. If there are any changes to my schedule they will be reflected in my calendar at <http://trygstad.rice.iit.edu/calendar/> so you may want to check there before you come see me. Evening advising is unlikely but can only be arranged by appointment via email.

For Professor Hajek's Advisees: Professor Hajek is available for advising on the Mies Campus Monday, Wednesday, and Friday, 10am to 2pm by appointment only. His office is Perlstein 223A. Contact him directly about Rice Campus advising. You can make an appointment with him at <http://hajek.youcanbookme.com>. *Please make an appointment.*

MATH for BITM Undergrads

First-year students may register for **MATH 180, Fundamentals of Discrete Math**. Any student who previously attempted MATH 230 and withdrew should register for this course as well. If you have previously failed MATH 230 and desire to replace the grade, you must retake MATH 230; this course cannot be used for grade replacement. Students who have completed Discrete Math may register for **BUS 221, Analytics for Informed Decision Making**, or **MATH 425, Statistical Methods**, which are only offered in the Spring (You may also take **PSYC 203** which is offered every term). BUS 221 requires a departmental permit from the Director of the Undergraduate Business program, Prof. John Twombly (twombly@iit.edu). He will probably not issue any permits until he is sure that all business students who need the class have registered.

MATH for BSACIT Undergrads

First-year students who have not started calculus should register for **MATH 148 Preparation for Calculus** or **MATH 151 Calculus I** depending on your math placement score. Students who have completed the calculus sequence (MATH 151, 152, and 251) should take **MATH 230 Discrete Mathematics** or **MATH 474 Probability and Statistics** which are only offered in the spring.

ITM First-Year Advising

All ITM first-year students need to take a Natural Science or Engineering elective. Remember that two courses in Natural Science or Engineering must be in the same subject area. In this area we strongly recommend **EG 225 Engineering Graphics for Non-Engineers**. The instructor, Jim Novak, has written the most widely-used textbooks in the field. Registering for EG 225 requires a permit from Jim Novak; you must email him at novak@iit.edu to request the permit and ensure that you include your CWID (A#). Once he has all the students registered, he munges everyone's schedules together and determines when the class will meet.

All ITM first-year students should also take a lower-level social or behavioral science elective. Remember that you must take 9 hours of lower-level social or behavioral science and humanities (100/200) but it can be two humanities and one social or behavioral science or two social or behavioral science and one humanities course. Some upper level Social Science courses require completion of a prerequisite in the same area so it may be best to take two lower-level social science classes in different areas and only one lower level humanities course. If you did not take it in the Fall term, first-year students should take a 100/200-level humanities elective, i.e. HUM 20X, or take a lower social or behavioral science elective. Also, for first-year students we who have not taken them, strongly recommend:

ITM Current Sophomore Advising

Sophomores (U-2) students who entered the program as first-year students need to start thinking about a minor, as completion of a minor is required in your ITM program. It can be anything you want—I do think it would be amazing to see someone in IT minor in philosophy or music—but you really need to start thinking about this. Remember also that BITM students may need **BUS 221, Analytics for Informed Decision Making**, or **MATH 425, Statistical Methods**, which are only offered in the Spring term—so you should grab one.

ITM Current Junior Advising

Junior (U-3) students who entered the program as first-year students should be two or three courses into your minor since completion of a minor is required in your ITM program. If you are not, we *seriously* need to talk.

ITM Current Senior Advising

ITMT 430 System Integration, the senior capstone course, is only offered in the spring term. If you entered in Fall 2014 or later and are planning to graduate this spring, you must have this course. The class, taught by Professor Jeremy Hajek, has lecture on Tuesdays 9:35am to 11:15am, room TBD, with lab Thursday or Friday morning, 9:35am to 11:15am in TS-2030. Labs will be in teams of five, so link up with friends you want to be in lab with and register for the same lab section!

Humanities General Education Elective Selection

Here are our recommendations for Upper-Level Humanities General Education electives for Spring 2017 with reasons. All courses are at the Mies Campus unless noted otherwise. All course data follows the format (- indicates no room is assigned yet):

Aesthetics: Attempts to answer the question: what is beauty? Jack Snapper is probably the best teacher at IIT and this class will fill up *very quickly*; this course is our NUMBER ONE PICK. Jack will make you think—but I think that making IT people think is a good thing. He is retiring soon so this may be your last chance to take a class with one of the Illinois Tech greats.

29690/SSCI 325-01/- /27/Mies -/Hao Huang

We have not listed it, but you may notice that there is an online Social Science elective in the fall term, **ECON 423 Economic Analysis of Capital Investments**; we do not recommend this class either live or online, despite the extreme scarcity of online general education electives. This is because experience has shown that if you take ECON 423 and four other classes, ECON 423 will be as much work as your other four classes combined. I like John Twombly, who teaches this course—and you probably would too—but his expectations are extremely high. If you really need to do a social science elective online AND you are not afraid of hard work, then GO FOR IT. You will learn a lot in the course and some ITM students who went in with a full awareness of the workload have told us this was their favorite course of the term. And **remember:** your adviser must enter a departmental permit for undergrads to register for any online courses.

Economic Analysis of Capital Investments

20594/ECON 423-01/Tues-Thurs 10:00am-11:15am/60/Mies -/John Twombly

Engineering Graphics for Non-Engineers: Learn to read blueprints and much more. Time/day for this class is not listed because the instructor, Jim Novak, gathers up the schedules of all of the students who have enrolled and determines a time for the class to meet that will work for everyone.

To register for this course, email Jim Novak at novak@iit.edu and request a permit to register for EG 225 and ensure you include your student ID number (A#).

24369/EG 225-128/- /32/Mies TBA/James Novak

If you are following the EG sequence for your Natural Science/Engineering requirements, you should note that **EG 325**, **EG 329**, **EG 425**, **EG 429**, and **EG 430** are all also offered this term.

Bachelor of Science in Applied Cybersecurity and Information Technology students should discuss your math options, listed on the first page, with your adviser.

Spring 2019 IIT Core Curriculum Elective Listing, Spring 2019 ITM Course Listing, and Spring 2019 INTM Course Listing

We have included a complete list of what we view as all the applicable General Education courses for the Spring so you don't have to track them all down yourself. We've also included a quick-reference of all ITM undergraduate courses for the Spring, and a list of Industrial Technology and Management courses if you are doing one of their very popular minors.

ITM (C) Course Elective Selection

As you are pondering your choice of ITM electives, just a reminder: IIT's general education requirements say that you have to take 12 hours of (C) coded courses in your major. These are courses with a significant written and oral communication component. Everyone will do three (C) coded courses (9 hours) as part of the ITM required courses, but this leaves 3 hours or one course that must be (C) coded ITM electives. There are a few (C) coded elective courses in the undergraduate curriculum, and we are offering two at the Main Campus spring term; they're available online as well. All course data follows the format:

CRN/Course Number/Days-Time/# of Seats/Bldg-Room/Instructor

Legal and Ethical Issues in Information Technology covers topics ripped from the pages of today's headlines as we examine the legal environment in which IT professionals work, and the moral and ethical issues both professionals and this industry face now and in the coming years.

You need to make sure you get one of these courses in your program of study, and this is a good opportunity to pick up one up.
