

ILLINOIS INSTITUTE OF TECHNOLOGY

Presents Parent University

Are you prepared to support your child's academic success in middle school, high school, college, and beyond?

Do you know how to chart the course for your child's career path?

Chicago parents and families: It's never too early to prepare your child for college and their future career path! Join us for a day of interactive college and career readiness workshops that will focus on the college selection, application & admission process, financial resources, and connecting your child to other opportunities in the city.

Kids Corner: Children ages 6-12 are welcome at our Kids Corner, so bring them with you to Parent University! They will participate in engaging and fun STEM (science, technology, engineering, and math) activities guided by Illinois Tech students while you attend the parents' sessions.

High School students: Students ages 13-17 are also welcome to attend Parent University for special sessions designed for high school students that are teen & first year college student-lead. Sessions include an Ed video project, Campus Life-Your First Year of College and Together Chicago high school program.

The day will culminate with interactive and fun activities sponsored by IIT's Army ROTC:

- **Obstacle Courses**
- **Rock Wall Climbing**
- **Human Fooseball**
- **Football Toss**

Date: April 2, 2016

Time: 8:30 a.m. –1:00 p.m

Location: John T. Rettaliata Engineering Center, 10 W. 32nd Street (32nd and State streets), Chicago, Illinois 60616

All sessions are free of charge. A light breakfast and lunch will be provided. An RSVP is required and requested by **Monday, March 28 at tinyurl.com/ParentUnivRSVP**

Questions? Contact **Deborah Young at 312.914.7234** or **dyoung6@iit.edu** for more information.
